

# eLite

Network Discovery and IP Configuration Tool

## Overview

eLite is a lightweight, standalone application for network discovery, IP configuration, firmware updates, and simple maintenance on EtherWAN managed switches. The user interface is simple and intuitive, offering quick access to the devices on the network. Configurations can be exported and imported from eLite, reducing the need to access the web GUI or CLI for each device. Devices can be accessed via the Ethernet port, eliminating the need for console (serial) connections.

### + For managing EtherWAN switches with eLite, you can:

- » Discover devices on the network
- » Modify device default IP settings
- » Upgrade firmware
- » Export/Import configuration
- » Change device passwords
- » Reboot devices

With eLite, you can deploy quickly with just a few clicks!

## Specifications

### + System Requirements

|                  |  |
|------------------|--|
| CPU              | Intel i5 2.5GHz and above  |
| RAM              | 4GB and above  |
| Hard Disk        | 1TB, 7200 RPM, SATA-3Gb/s or higher  |
| Operating System | Windows 10 (64-Bit)  |
| Browser          | Microsoft Edge, Chrome v64 or later, Firefox v58 or later, Safari 11.11.1 or later |

|  |
|--|
| EX73900X Series                          |
| EX73900E Series                          |
| EX73900 Series                           |
| EX73000 Series                           |
| EX71000 Series                           |
| EX63000 Series                           |
| EX61000A Series                          |
| EX27000 Series                           |
| IG5 Series (Not sold in U.S. and Canada) |

### + Supported EtherWAN Devices (Model No.)

|                 |
|-----------------|
| EG97000 Series  |
| EG97023 Series  |
| EX87000 Series  |
