

EX43000 Series

Industrial 8-port Fast Ethernet Unmanaged Switches

Overview

EtherWAN's EX43008 is a compact, industrial-grade **unmanaged Fast Ethernet switch**, designed for reliable and hassle-free deployment in harsh environments. The EX43008 features 8 Fast Ethernet ports with 10/100Mbps auto-negotiation, full/half-duplex, and auto MDI/MDIX support. These functions simplify device connectivity without the need for manual configuration.

Engineered for industrial performance, the EX43008 offers wire-speed Fast Ethernet throughput and supports advanced functions such as [Quality of Service \(QoS\)](#), **IEEE 802.3az Energy Efficient Ethernet (EEE)**, and Broadcast Storm Protection, which can be enabled via DIP switch. A built-in relay alarm provides real-time alerts in case of power failures or link downtime, enhancing network reliability and system awareness. Housed in a rugged, DIN-rail mountable metal case, the EX43008 is ideal for mission-critical applications in factory automation, transportation systems, and intelligent infrastructure.

Spotlight

+ Wide Temp & Rugged Case

- -20°C to 60°C operation in a fanless DIN-rail metal enclosure.

+ Port Failure Alarm & Storm Protection

- Relay alarm alerts on power or link failures.
- DIP switch sets thresholds to prevent network congestion and performance issues.

+ Fast & Energy Efficient

- QoS and IEEE 802.3az support for smooth, low-power performance.

+ Plug-and-Play

- 8 ports, 10/100Mbps auto-negotiation, auto MDI/MDIX.
