The screenshot shows the EtherWAN web interface. At the top, there are navigation tabs: Home, Devices, Batch, Group, Events, and Settings. The main content area is divided into two sections: 'Device List' and 'Topology'.

Device List: A table with columns for IP, System Name, and Group. It lists 12 devices with their respective IP addresses and system names. Below the table are navigation buttons for 'Previous', 'Page 1 of 3', and 'Next'.

Topology: A network diagram showing a central server node connected to multiple client nodes. A legend indicates that green circles represent 'Online' devices, white circles represent 'Offline' devices, and red circles represent 'Event' devices.

Latest Events: A table showing recent events with columns for Acknowledged, ID, Severity, Time, Service, Node, and Message. The events include login attempts and ping-monitor alerts.
